

新增介面

模型預覽

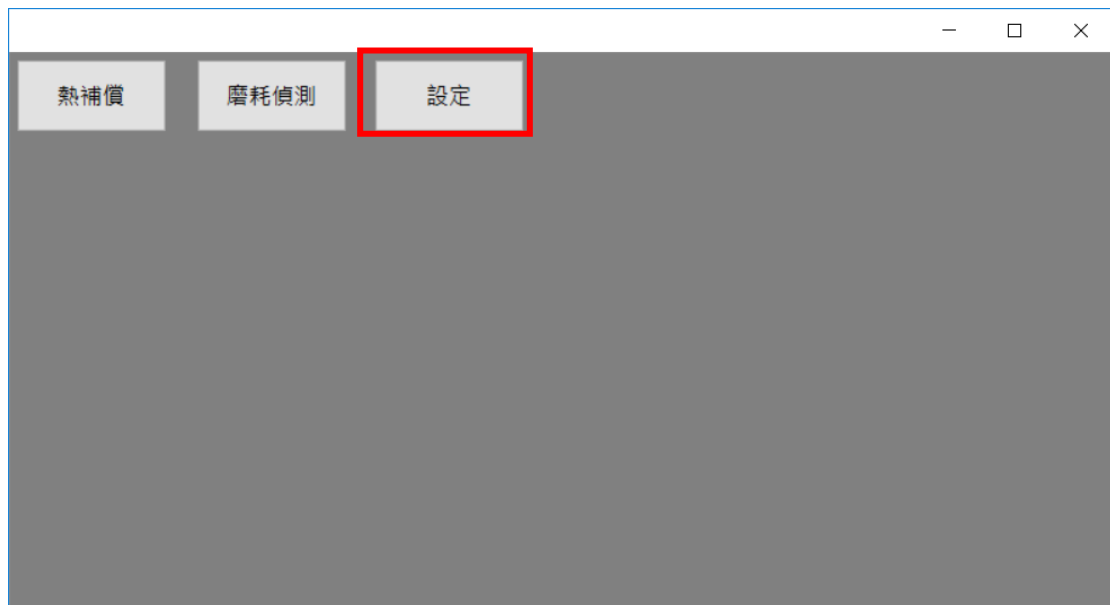

修改處：

磨耗偵測設定(新增 模型預覽，修改文字 輸入端點設定→輸入端點)

The figure shows a software window for '磨耗偵測設定'. It has a grey background. At the top left is a '回前頁' button. Below it is a dropdown menu labeled '輸入端點' with the value 'cDAQ1Mod1/ai0'. To the right of this is a '選擇工件' dropdown menu with the value 'test'. Further right is a text input field labeled '新增工件名稱'. Below these are three buttons: '學習', '設定臨界值', and '新增'. At the bottom left, there is a button labeled '模型預覽'. The '輸入端點' and '模型預覽' buttons are highlighted with red rectangular boxes.

主畫面(修改文字 CNC 設定→設定)

磨耗偵測(修改文字 切換原始數據→切換數據顯示)
